

# LUBEX EP 2 SPECIAL

## High Performance Multipurpose Grease

### Features

- High performance multi-purpose grease
- Lithium complex thickener
- Excellent mechanical stability

**LUBEX EP SPECIAL** is high performance grease developed to meet the needs of today's demanding industrial and heavy commercial users where typical EP grease is not enough. The Lithium complex thickener gives a wider range of performance benefits over a wider range of applications.

**LUBEX EP SPECIAL** is remarkable in its ability to overcome most of the traditional weaknesses of other grease.

**LUBEX EP SPECIAL** has excellent mechanical stability under repeated mechanical stress with low separation tendency. The high dropping point makes it ideal where heat can excessively thin other greases. Extreme pressure additives offer outstanding wear protection under the most severe shock loading. A unique rust and corrosion inhibitors ensure longevity of equipment life. The high quality base oil and Lithium complex thickener is enhanced with a polymer to improve adhesion tendency and water washout resistance, making it the ideal choice where water contamination is unavoidable.

**LUBEX EP SPECIAL** is available in NLGI (National Lubricating Grease Institute) Grade 2. It is ideal for mobile applications such as forestry, mining and construction as well as industrial applications including saw mills and paper manufacturing.

### Benefits

- Excellent adhesion
- Water washout resistance
- High dropping point
- Reduces leakage
- Multipurpose – reduces inventory

### Sizes & Order Codes

<b>LUBEX EP 2 Special</b>
400g Box 10 Tubes FG008012
55Kg 121.3 lbs. Keg FG008345

### Typical Results

NAME	Lubex EP 2 Special
THICKENER TYPE	Lithium Complex
NLGI GRADE	2
COLOR/APPEARANCE	Red / Tacky
VISCOSITY, OIL COMPONENT (D445) cSt @ 40°C cSt @ 100°C	210-300 19-22
WORKED PENETRATION (D217) @ 25°C	-15 to 225
4-BALL EP TEST WELD POINT (D2596) Kg	500
DROPPING POINT (°C) (D2265)	287 MIN
POUR POINT (°C)	-12
TIMKEN OK LOAD, lb (D2509)	60 min
